

EPSON®

What you need:

- Good quality A3 paper or card

Instructions:

1. Open the brochure template and add your contact details, headlines and text in the spaces provided.
2. Place the card or paper in the appropriate tray or feed and, if needed, adjust the paper source and type in your printer settings.
3. Using high print quality, print on both sides of the paper or card, and check you can fold the result into an A4 brochure with all the text oriented correctly. You may need to modify your printer settings or make appropriate changes in the Adobe Reader print dialogue.
4. Change your printer settings to produce high quality, colour output.
5. Print and fold to create professional-looking brochures for your products, services, company or events.
