The Happy Tree!

Print out the happy tree, stick it together and write everything that makes you happy on the leaves to stick on the branches!

1. Cut out each tree and fold in half along the centre. Fold inwards so the brown tree trunks are together.
2. Once all are cut out and folded, stick them together in a circle.
3. Then cut out the leaves, write down all the things that make you happy and stick them on the tree!
